

SEG seeks to move the Europe wide sustainable eel agenda forward through consensus and every year a series of meetings are planned and managed involving the key stakeholders. At the AGM each year a star chamber is confirmed of 5 voting members from each of the founding constituencies of SEG, Science, Conservation and Commercial to reflect our governance rules as described in our Articles of Association. This body exists to vote on any decision that has not been resolved through consensus. The following 15 were ratified at the AGM in 2016.

Voting Name	Science / Cons / Industry	Organisation
Andrew Kerr (no vote)	Chairman	
1. Brian Knights	Science	Independent
2. Adrian Pinder	Science (UK)	Bournemouth Univ
