

## Register of Organisations achieving the Sustainable Eel Group (SEG) Standard

The following are registered as certified as trading in Responsibly Sourced European Eel, according to independent assessment under the [SEG standard](#).

### Important Note

This shows those who have passed the SEG standard and are trading to some extent in responsibly sourced European eel. It does not guarantee that 100% of their stock is SEG certified.

Customers seeking certified eel should check with the supplier for evidence of their source on any specific batch.
