Sustainable Eel Group

Call out for Applicants:
Support Towards ISEAL Code Compliance

The Sustainable Eel Group is looking for consultancy, contract or other part-time support during 2023 to assist in its programme to complete the journey to ISEAL Code Compliance
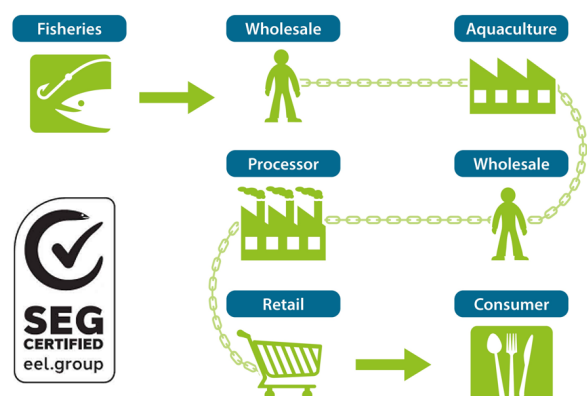

Overview

- **We are seeking people who have experience of developing procedures to support sustainability systems, particularly those that have been developed to the ISEAL codes of good practice.**
- **We require approx. 50 days support over 12 months, January to December 2023, 2 – 10 days per month, an average of 4.25 days per month.**

Detailed support

In particular we are seeking support with developing:

- Upgrade of our Assurance system
- Upgrade of our Accreditation system
- Upgrade our Monitoring, Evaluation and Learning system
- Develop a Risk Policy and Risk Management Plan
- Develop a Document Management system

To apply

- Please contact dbunt@sustainableeelgroup.org to arrange a Zoom meeting to discuss
- We will wish to understand:
    - What sustainability systems you have helped with in the past
    - What parts of those systems you have worked with
    - Your availability during 2023
    - Your rates

Further information

- We are the Sustainable Eel Group (SEG), www.sustainableeelgroup.org
- We are the leading NGO in Europe aiming for the recovery and sustainable use of the vulnerable population of the European eel
- We are the owner of the SEG Standard, which sets the criteria for responsible and best practice fishing, aquaculture, restocking, consumption and trade of eel
- We have been a Community Member of ISEAL since September 2019 and are seeking to improve our sustainability system to fully meet the ISEAL codes of good practice
- Our current system and can be viewed at: https://www.sustainableeelgroup.org/the-seg-standard-system/
