

#EelDeal2030

1. Eel Stock has stabilised for over a decade following a steep 30 years decline and the Eel Regulation as anticipated is slowly working.
2. Continue to give primacy to the Eel Regulation with its enabling of the subsidiarity principle and long term thinking.
3. Improve the feedback mechanism between EU-COM and MS so that all negative mortality impacts are addressed.
4. Recovery needs Habitat Restoration so the link to the Green Deal and WFD are an essential part of the holistic strategy.
5. Countering Eel Trafficking remains a priority and the SEG Standard with its full traceability requirement is also key.

ICES 2022 Glass Eel Timeseries Recruitment Index

Please note that 'elsewhere' accounts for over 90% of the recruitment. Around 1.3 billion is an indicated arrival volume from earlier ICES studies

The SEG Standard with Traceable Supply Chain has impact

The Reinvention is taking place the sector becomes the Eel Steward
